Employee Leave Policy

Purpose

This policy describes the company's standard leave entitlements and approval process for eligible employees.

Leave Entitlements

- Annual leave: 18 days per calendar year.
- Sick leave: 10 days per calendar year.
- Maternity leave: 12 weeks.
- Paternity leave: 2 weeks.
- Carry-over: Up to 5 unused annual leave days may be carried into the following calendar year. Any carried-over days above this limit expire unless an exception is approved by HR.

Approval Process

Employees must submit leave requests through the HR portal before taking planned leave. Managers review the request, and HR administers leave records and policy exceptions. Sick leave should be reported as soon as reasonably possible when advance submission is not practical.
